

GPS Vehicle Tracking Service

Easy to use, Easy to install

Now, the most trusted name in alarm communications provides you with a fast and easy tracking solution for your vehicles, whether it is one or 100. UplinkGPS is a natural way to offer security for your vehicles, employees and family members beyond traditional methods.

Know where your family or employees are 24 hours a day/7 days a week!

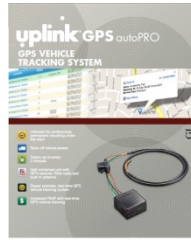

You will use your customized account via your PC, laptop or smart-phone to track and manage your vehicles. There are a number of easy to use options such as view all vehicle locations, click-to-locate, receive email or text notifications for violations of speed, alert zones, view history and export reports. There are even notifications for ignition events during selected time periods.

Benefits:

- Locate or monitor teen and elderly drivers for enhanced peace of mind.
- Locate and recover stolen or missing vehicles.
- Manage company vehicles and employees more efficiently.
- Monitor for unauthorized use of vehicles.

Features:

- View locations of all vehicles
- Click-to-locate for on-demand mapping, or periodic location reporting
- E-mail or text notifications for over-speed violations, entry and exit of alert zones
- Notifications for Ignition On and Off
- View history and export reports
- Scheduled notifications during selected time periods for Ignition, Speed and Power Restoral
- Daily "heartbeat" report
- Online support, FAQ's and downloads
- Three mapviews included: Street Map, Satellite, and Hybrid with street view links
- 60 days of history
- Support for English, Spanish and French languages
